

Chernobyl 2000

Help for the Children of Belarus

Dear Sir/Madam

I am the Director of a charity called Chernobyl 2000 Ltd; since 1998 we have been helping the children of Belarus who have been the victims of the terrible disaster of the Chernobyl nuclear reactor meltdown in 1986.

As part of our ongoing efforts we are trying to equip as many of the schools and orphanages with computer equipment in order to try and bring them into the 21st century. I am asking as many companies or individuals as possible if they have any old or unused computers or computer components that they no longer have any use for. We would be happy to take anything as long as it is still serviceable but we cannot take old monitors due to various laws.

If you can help in any way we would be most grateful, as will the children in Belarus. No item is too small and we are happy to arrange collection from your premises.

Please contact me on 01179028181 or 07813190282 if you are able to offer assistance

Thank you in advance for your assistance.

Yours Sincerely

Clive Sheridan
